

**Parabola Volume 44, Issue 3 (2008)**

Dear Readers

Welcome to the final issue for 2008.

I am delighted to let you know that the U-Committee of the University of New South Wales has generously provided us with funds to set up a website for online mathematics outreach to secondary school students throughout Australia. The U-Committee is a group of friends of the University of New South Wales that raise funds to support a wide range of programs that otherwise might not be funded. One of our first tasks will be to create an online archive of *Parabola* articles and problems dating from Volume 1 in 1964. We will keep you posted of developments.

Thank you for your continued support.

B.I. Henry  
Editor
